SCHOOL RALLY AT FITZHUGH

E. C. Mitchell reports that the patriotic rally at Fitzhugh Friday evening was a most gratifying success. The address of the occasion was delivered by Rev. C. B. James of Ada and Mr. Mitchell speaks of it

as a masterly effort. Another feature that was greatly appreciated was the music by the quartet composed of Rev. James, L. T. Walters, Joe Guest and E. C. Cunningham. Others from Ada were Tom King, wife and son, Mrs. James, Misses Marjorie Crawford and Mae Guest.

The patrons of the school had raised money to buy two war savings certificates which they offered as prizes for the best addresses by high school and grade pupils. Several contestants participated. Albert Vincent was adjudged the winner for the high school and Beulah Agee, a little miss of six years won the honors for the grades.

SELL GROCERIES

One of the world's largest wholesale Grocers, (capital over \$1,000,000,000.00) wants ambitious men in every locality to sell direct to consumer nationally known brand of groceries, teas, coffees, spices, paints, oils, stock foods, etc. Big line, easy sales. THIRTY-SIX AFFLICTED BOYS DIE IN FLAMES AT NORMAN

ALLIED LINE HOLDS FIRM

GERMAN ATTACKS FOR MOST PART REFUSED. AMERICANS IN FIGHT.

(By the Associated Press)

Paris, April 13.—The Germans last night renewed attacks upon French positions in Brule wood in Apremont forest. American troops in this sector, in conjunction with French, says official statement, have combatted with vigor and broken the majority of enemy attacks. The enemy gained a footing at one point but was ejected by a counter attack. On the Somme front the entire Hangard village and adjoining cemetery have been regained from the Germans.

French Recapture Hangard.
London, April 13.—The Germans attacked last night west of Merville on the northern battle front and were repulsed, the war office announces. The British advanced their line slightly in Festubert region taking a few prisoners. There was heavy fighting last evening near Neuve Eglise and Wulverghem and the battle still progressed late last night. Strong enemy forces launched an attack early in the night east of Locon and entered the British line at certain points but were ejected by a counter attack. A second attack at the same place was also beaten off. South of the Somme British and French by counter attacks drove Germans from Hangard which they entered yesterday.

Victims of Hun Air Raiders.
Paris, April 13.—Twenty-four persons were killed and sixty-two wounded as the result of the German air raid on Paris last night.

Five Killed in England.
London, April 13.—Five were killed and fifteen injured in the German air raid last night on England, the official announcement says.

COMMITTEE AMENDS SABOTAGE BILL

(By the Associated Press)

Washington, April 13.—The Sabotage bill provisions, penalizing acts of obstructing production of war materials were eliminated from the measure today by senate and house conferees, together with the clause permitting labor to strike for higher wages.

DUNCAN WOMAN HEADS OKLAHOMA EASTERN STAR.

Tulsa, Oklahoma, April 13.—Mrs. Myrtle F. Stewart of Duncan was elected grand matron of the Oklahoma Grand Chapter of the Eastern Star, which has been in annual convention in Tulsa this week. Other officers elected were as follows: Mrs. Lula C. Botts of Oklahoma City, assistant grand matron; J. F. Hetherington of Oklahoma City, grand patron; E. L. Lively of Anadarko, assistant grand patron; Mrs. Mary Alverson of Blackwell, grand secretary; Mrs. Elizabeth McWhirter of Cleveland, grand treasurer. The new officers were installed in convention hall today.

OFFICIAL REPORT ON LIBERTY LOAN

(By the Associated Press)

Washington, April 13.—Subscriptions to the third Liberty Loan officially reported to federal reserve banks today as the first quarter of drive was passed, totalling \$539,426,100, or slightly over one-sixth of the minimum sought by Secretary McAdoo. Much more has been subscribed but not yet officially reported.

ELM FLAT CAMPAIGN MANAGERS PLEASED

Prof. J. L. Flowers, M. L. Bucklew and R. F. Henly were in Ada Friday afternoon to turn in their report for the Liberty Loan campaign in Elm Flat school district. The district went far above its quota and the managers praised the people highly for their readiness to subscribe and seal in adding them. Every family in the district bought at least one bond and all the single men bought, except two or three who are going to the front at once and were not expected to buy.

WOODEN BUILDINGS AT STATE INSTITUTE PROVE DEATH TRAP.

(By the Associated Press)

Norman, Okla., April 13.—Between thirty and thirty-seven boys, aged from ten to fifteen years, were burned to death in the state hospital for the insane here this morning. All of the boys were inmates of the institution and were helpless as the flames wrapped around them. Being confined in the houses, the young boys were unable to get out of the fire before their bodies had been charred by the onrushing flames.

The fire was of unknown origin. It completely destroyed wards 10, 14 and 15 and the institution dining room. It started in the engine room of the hospital, according to the best information obtainable and spread to the other buildings.

Dr. D. W. Griffin superintendent of the institution, said early this morning that the death list may be even greater than thirty-seven. Efforts are being made now to compile a complete list of the dead. The institution is located several blocks east of the city proper, and the fire department could not reach there in time to save the inmates. The flames were discovered in a few minutes after they broke out, but the panic among the children in Ward 10 prevented effective work by the rescuers.

Practically all of the buildings at the asylum are wooden structures.

LATER—Advises put the death list at thirty-six, and said forty-eight white men and boys were in ward fourteen where all the deaths occurred. A night watchman discovered the fire in a linen closet in this ward and when he opened the door the flames quickly spread throughout the building. The structure housing wards fifteen and fourteen were frame buildings and burned quickly. About half the missing boys are from ten to fifteen years old while the remainder were from sixteen to thirty-six.

No effort was made this morning to take the charred bodies from the ruins which were still smoldering at a late hour. It was said to be impossible to identify any of the bodies. Dr. Griffin expressed the opinion that the fire started from defective wiring as none of the inmates were allowed to carry matches. The property loss is estimated at \$40,000. Some of the violent patients fought the rescuers.

DESIRABLE OCCUPATION

We are moving to our new office and our vacation season begins soon. We are going to start a class in telephone operating with Miss Minnie Nelms, instructress in charge. The work is very interesting and the working conditions are favorable. We pay \$6.00 per week (of six days) during the four weeks' training period. A substantial increase is given at the end of this period, and regular increases thereafter. Come up and talk with Miss Ethel Parkenton, Chief Operator, about the opportunities.—The Southwest Bell Telephone Co. 4-12-18

THREE LEGGED CHICKEN LATEST FREAK OF NATURE

T. Z. Summers, who lives two miles north of Ada, showed the News a three legged chicken recently hatched. The legs are in a position something like those of a three-legged stool and the chick cannot get about as lively as a normal one but the bird has a fair chance to live.

THE CHEERFUL CHERUB

I'm studying astronomy.
It rests my mind somehow
To think about those far-off worlds—
Our own's so muddled up now.

WEATHER REPORT.
Cloudy is the best the weather man can promise for Sunday.

NOTED BRITAN HERE MONDAY

LIEUTENANT C. J. ALLEWAY TO LECTURE FOR LIBERTY LOAN AT NORMAL AUDITORIUM.

The citizens of Ada are to have the opportunity of hearing another member of the British army Monday evening, when Lieutenant C. J. Alleyway will lecture in the Normal auditorium. Lieutenant Alleyway is in America on a leave of absence and is using his time to tell the people what we are against in Europe. At this time he is talking Liberty Loan mostly and comes under the auspices of the Liberty Loan managers.

R. W. Simpson, manager of the drive, is anxious that a big crowd hear the distinguished Briton. It was decided to hold the lecture in the Normal in order that all can get in to hear him. It is expected that the auditorium will be filled.

A few weeks ago the people of the town and county heard Lieut. McQuarrie. It is generally believed that Mr. Alleyway will have a message just as inspiring.

The address will begin at 8:30, which means about dusk.

E.C.S.N BOYS MAKE TABLES FOR SOLDIERS

Recently the manual training department of the East Central normal was asked to make four tables for use of the soldier boys in their hours of recreation. Prof. Ericson and his pupils at once complied with the request, and part of the top of each table was fitted with two check-boards, so that if the boys cared for this game two games could be going at once. That the tables were far above the ordinary is evidenced by the following self-explanatory letter received by Mr. Ericson:

"Your four checker tables arrived yesterday and I hasten to acknowledge their receipt and tell you how delighted we all are with them. Of all the 'Doing Your Bit' schemes that have come to my notice, I do not know of anything that has appealed to me more than this idea of having the boys make checker tables for the soldiers."

"The idea is so practical and the tables are so really valuable and attractive, that they will add much to our equipment and to the pleasure of the soldiers and at the same time I feel that there is something very beautiful in the idea of the boys in the schools saving and hammering away for the men in the camp."

"I was as enthusiastic as a child with a Christmas package when the tables were being unpacked."

"Although our quota number 102 tables altogether, you will, I think, be gratified to know that of those thus far unpacked, the four from your school are by far the finest in workmanship and finish and were the most neatly and carefully packed. My congratulations to your boys on their splendid work and my thanks to you all for this fine gift. More strength to the arms of your young carpenters and cabinet makers."

Yours sincerely,
(Signed) FRED B. APPEGET,
Camp Educational Director, National War Work Council, Camp Pike, Arkansas.

GAULT OFFERS BULL CALF TO ENCOURAGE FARM STUDY.

Oklahoma City, April 13.—The county agent who secures the largest attendance of farmers to the short course to be given at the A. & M. College in July and August will be the recipient of a registered Hereford bull calf, a present from F. M. Gault, President of the State Board of Agriculture. Mr. Gault is sending a letter to that effect to all county agents in the state.

"The county agent winning this premium can dispose of it as he sees fit," says Mr. Gault, "but I would suggest that it be placed on sale in the county represented by the county agent winning it and sold to the highest bidder, the money derived from the sale to be donated to the Red Cross."

NOTICE MASONS.
Ada Lodge No. 119, A. F. & A. M. will meet in called communication to-night at 8 o'clock for work. A good attendance requested.—John Thrasher, W. M.

AMERICAN MILITARY FUNERALS IN FRANCE

(By the Associated Press)
Paris, June 15.—Thousands of miles from their maternal hearth, the American dead, heroes of the second battle of the Marne who have succumbed from grievous wounds in Paris hospitals, are mourned daily by French mothers, fathers or sisters who have felt the sorrow of the kindred of these heroes.

Daily the funerals leave the city hospitals for the little cemetery dedicated to Americans by the city of Suresnes, located on a hill to the west of Paris overlooking the capital. Daily, the Republican guard in their picturesque and historic military attire marches forth to the funeral to bestow France's regard upon these Americans. American Marines act as the guard of honor, and though no volley is fired because it is forbidden by the French authorities, the American bugler sounds "taps."

A service is first held in the little chapel in the hospital. Protestant chaplains officiate over the dead of their faith and Catholic priests over theirs. The hospital organization, such as can be spared including the nurses, orderlies, clerks and doctors attend the services. The bodies are borne from the chapel to ponderous army motor trucks. As each body is brought to the conveyance, the Republican Guard and the Marines execute "present arms." When all the dead have been placed upon their military biers, the procession to the cemetery starts. At the head are the chaplains in motor cars. Then follow the motor trucks and last the guard of honor. The coffins are draped with American flags. Each one bears two wreaths, one given by the Republic of France and another by the City of Paris. Tri-color ribbons bind the wreaths. In letters of gold, the rib-

CONSTIPATION

And Sour Stomach Caused This
Lady Much Suffering. Black-Draught Relieved.

Meadowville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before."

I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape.

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Thedford's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it. NC-155

The little procession winds its way along the boulevards. The French know its significance. Without exception, as it passes, every pedestrian stops, uncovers and bows in homage to the American heroes.

Reaching the summit of the hill of Suresnes, the interment of the bodies begins. A crowd of French mothers and sisters gathers at the graves. They reverently listen to the chaplains pronounce the last words, and heavy of heart, they feel the sorrows of those thousands of miles away.

The American bugler takes his place and slowly sounds "taps." At the final tone, the command is given and the military escort returns to its post in the city. The little crowd of mothers and sisters repair to their homes, with thoughts of the mothers and sisters in America. The Suresnes cemetery is the gift of the Suresnes municipality to the American army. It is beautifully situated in the midst of a cluster of trees. The walks are arranged in the form of a cross.

A drowsy, half-sick, discouraged feeling is caused by a torpid liver and impurities in the stomach and bowels. Prickly Ash Bitters is a prompt and efficient remedy. Try it. Price \$1.25 per bottle. Gwin & Mays Drug Co.

C. W. Herod
Woodward, Oklahoma
A Democrat
For Corporation Commissioner

For twenty-four years a resident of Oklahoma. Mr. Herod is a native of Tennessee, a Democrat unwavering, standing squarely behind the Administration. He is coupled up closely with all war work activities and a man of marked qualification for the place he is seeking. Endorsed by the Democrats of Woodward and adjoining counties and the Chamber of Commerce of his home city, Woodward, Mr. Herod and his friends appeal to the voters of the East Side of the State for a favorable consideration of his candidacy, believing the West side of the State to be entitled to a man on the Board, all the other members being at present from the East Side.

FERRIS GIVES FACTS ABOUT WAR ACTIVITIES

Washington, July 13.—President Wilson, on Tuesday, July 2, sent Congressman Scott Ferris the following telegram while the latter was attending a loyalty meeting at Chicago:

"Honorable Scott Ferris, M. C., Chicago, Ill.

"My warmest greeting and hope for a big meeting, which will still further heighten and strengthen the country's already fine spirit of loyalty."—(Signed) Woodrow Wilson.

Congressman Scott Ferris, chairman of the Democratic National Congressional Committee, speaking before the Iroquois Club, one of the oldest Democratic clubs in Chicago, which has been in existence for more than forty years, delivered an address to all factions of the Democratic party in Illinois.

The Chicago Herald and Examiner of July 3, has published the following extract from his speech:

"The only way to stand by our country is to stand by the constitution and the authority of our country, which in this case is our heroic and patriotic President. Loyal men must fight for the nation, fight for the president, fight the enemies of the country, fight the I. W. W. and all the roundheads in the land."

The Democrats in the conference smiled contentedly over the fact they have been supporting the national administration when Mr. Ferris told them what actually had been achieved.

Particularly did the Democrats rejoice and make much noise in expressing their joy when Mr. Ferris told of what had been done in the aviation field. The congressman's official report was in such contrast to statements made as late as Monday night at the Coliseum Republican convention that the Democrats became enthusiastic.

2,000 U. S. Planes to France.
Congressman Ferris said: "On the day before we entered the war our air service had sixty-five officers, 1,120 men, three small aviation fields, and less than 200 second class planes. Today, a little more than one year later, we have more than 150,000 men and 6,000 officers and twenty-eight aviation fields."

"During that short period we have constructed 5,000 planes, and 2,000 of them have been sent to France. We have trained 7,000 aviators in the United States, 2,000 more have been trained abroad, and 4,000 young men are awaiting assignment to grounds and schools. Our cadets are flying 8,000 hours a day, and in a single field there are 135 planes in the air at once."

Navy First in World.
Another statement which cheered and was cheered by the local Democracy was that the American navy has convoyed in safety 700 ships, and that since it has been engaged in the war it has engaged in eighty-one submarine combats. He said the navy is the first in the world in point of efficiency.

Mr. Ferris gave a further opportunity to look into the official records of the government by telling something of the production of munitions. He said:

"From April 6, 1917, to June 30, 1918, the War Department has produced 2,000,000 rifles, and they are being produced at the rate of 46,000 a week. Not a man in the army is without a gun. We have completed 80,000 machine guns, and have ordered 350,000 more. We have built 35,000 motor trucks for hauling heavy guns and ammunition; 179,000 shells are produced daily at four government plants, and fourteen private plants are running at full speed."

Comparative figures on the strength of the army were given, showing that at the close of Roosevelt's administration there were 207,067 men; at the close of Taft's administration 211,964, and at the close of Wilson's first administration, 323,000; that after fourteen months of war there are 2,000,000 men in the army, of whom 1,000,000 are in France.

Of the navy, he said that the day war was declared the United States had 300 ships afloat, while on June 30, 1918, there were approximately 2,000, of which ninety are to be launched tomorrow, July 4.

From the review of the administration's work, Mr. Ferris inquired: "Is there anything in that record to cause any valiant Democrat to be ashamed of President Wilson and the patriotic congress which is supporting him?"

After a reference to the internment camps, the speaker added: "From what I read in the Chicago newspapers this morning of what took place at the Coliseum last night I think District Attorney Clyne ought to establish an internment camp near this city."

Facilitate Is Denounced.
He denounced the pacifist, the person who spreads false reports to cause dissatisfaction, the one who tries to interfere with the successful prosecution of the war for one reason or another, and said: "Let the boy who deserts go home to his sorrowing mother, and shoot, if need be, the person who caused him to desert."

Chairman Jamieson gave a friendly lecture to the Democrats on the subject which he said was their penchant for knifing candidates because of factional differences. As a prelude he said: "I cannot help but feel that the destinies of this nation, the guidance which makes President Wilson today the leader of the fight for liberty and democracy."

Easy to Keep Cool

if you are ready for hot days with an Emerson Fan

This small size is portable and adjustable; a small fan, but a real one, not stamped out of sheet metal. Costs almost nothing to run.

A five-year guarantee coupon with each Emerson fan.

Churches

Sacred Concert.
Everything is in readiness for a pleasant evening of sacred songs at the Christian church Sunday evening at 8:45. The choir is singing splendidly, our mixed quartet will sing for the first time, and you will enjoy it. Come! Come! Come!

Methodist Notices.
We want all our people to hear Lieutenant Babcock of the United States Army next Sunday. This is a peculiar opportunity for us and we prize it. Let the mothers, fathers, wives and friends of our soldier lads attend the services. There will be such a cordial welcome at "The Home-Like Church" for you and your friends. Come and bring them with you.—Wallace M. Crutchfield, Pastor.

First Presbyterian Church
Corner South Broadway and East Fourteenth Streets.
(Corner South Broadway and East Fourteenth Streets.)
Junior Christian Endeavor at 9:30 a. m.
Intermediate Christian Endeavor at 9:00 a. m.—Miss Mollie Russell, Superintendent.
Sunday School at 9:45 a. m.—Prof. Gordon, Superintendent.
Morning Worship at 11 o'clock, with sermon on "Summer's Three R's".
Evening Service at 8:30 p. m.—Subject of sermon "The Wells of Salvation".
Prayer Service every Wednesday evening for forty minutes, beginning at 8:30. Subject for this Wednesday evening, "The Better Country".

You will always find our services bright and brotherly. May we look for your co-operation with us?
GEORGE WESLEY BECK,
Minister.
Residence 107 East Fourteenth.
Telephone 232.

Church of Christ.
The protracted meeting being held by the Church of Christ still continues. Evangelist Hinds will preach on the "Lord's Supper" at 11 a. m. Sunday. At the evening service the subject will be "The Parable of the Vineyard." The evening sermon will be illustrated with a black board diagram. A cordial invitation to all to attend these services. The subject tonight will be the "Healing of a Leper."

St. Luke's Episcopal Church.
109 E. Fourteenth St., Rev. Franklin Davis, Rector.
Note the change from the usual hour for services tomorrow.
Sunday school at 9:45 a. m. No morning services.
Evening services at 8 p. m.
You are cordially invited to attend this church.

The churches are trying in full measure to do their bit for the country. Now are you doing your part to sustain them in it? Remember the little church.

Fifth Anniversary of First Christian Church.
Sunday is the 5th anniversary of the "Call to the work" of Clifford B. James, as pastor. The work of pastor and people has been a successful and pleasant one. While we shall not recount these successes we hope to have every member present and it is our desire to bring you a message of love and encouragement. We cannot do this if you remain at home. Then who they said, let us go up unto the House of the Lord.—Clifford B. James, Pastor.

First Christian Church.
Our anniversary as pastor, and our anniversary as Pastor and People. Morning worship 11 a. m. "Our Anniversary as Pastor and People." Evening worship 8:45 p. m. Sacred concert and sermon. Subject "What Will I Do With Jesus?" C. E. Service 7:45. Rev. J. W. Beck gives the address. Subject, "Christian Endeavor Principals." Meeting of the official board at 3 p. m.
May we have the pleasure of greeting you at these services.—Clifford B. James, Pastor.

W. B. M. Society.
The different divisions will meet in the following homes Monday at 4 P. M.
No. 1 with Mrs. Mount on East 10th St.
No. 2 with Mrs. Harris East 13th St.
No. 3 with Mrs. M. Levin E. 17th St.
No. 4 spend the afternoon at Red Cross.

AMERICAN ASSOCIATION WILL BENEFIT BY SUSPENSIONS.
Chicago, July 13.—Suspension of the Western, Southern, Pacific Coast, International and Texas baseball leagues will benefit the American Association according to President Thomas J. Hickey, who asserts that the best talent of the disbanded organizations will be signed to strengthen the association clubs.

Approximately three hundred players, a majority of them over the draft age, are available for immediate service, as a result of the collapse of the four leagues, President Hickey said, although the best talent in the Southern Association already has been snapped up by the major and big minor leagues. As soon as the muddled baseball situation is cleared of the uncertainty prevailing over General Crowder's "work or fight" regulations, the American Association will add forty or fifty new players to its roster.

Since the suspension of the Western and other leagues, our club owners have been in communication with the players thrown out of employment and we expect to land some very promising talent," President Hickey said.

"We will, of course, first negotiate with players over the draft age. As is generally known, the baseball business is anything but a success this season, due to the war situation, but in view of the fact that our organization will go through with its season we have decided to give the public the highest standard of the game possible."

President Hickey returned from Kansas City and Indianapolis enthusiastic over the possibilities of twolight games. The "after supper" sport was started in the Hoosier capital with success, the attendance being treble the average week-day afternoon crowd. There is a possibility he said, that Toledo and Columbus will adopt the twilight plan, which was inaugurated in Minneapolis.

South Africa has 317,000 miners, of whom only 32,000 are white.

One-third off on Straw Hats.—The Model. 7-13-1t

A son of Sam Floyd and wife, north of Ada, is reported ill of typhoid fever.
Mrs. Nora Foster went to Union Hill today and will open a term of school there Monday.

Prof. C. E. Holt returned from Ardmore this afternoon where he has been at work on some valuable inventions.
HARRIS HOTEL—Elegant meals, well served, 50c. 7-9 & 13

Miss Lillian Hassenfratz, who taught in a government school in the Panama canal zone the past year, arrived Friday to spend her vacation with her mother, Mrs. E. Wright.

E. W. Walker, who is with the construction department of the Katy railroad, is home from Kansas. He says the drought has ruined the corn in some parts of the state, but in other places it is very promising.

Maxx Brents, who enlisted with the cavalry sometime ago and is stationed at Camp Stanley near San Antonio, has been promoted to the rank of sergeant. He is pleased with the service and bent on making good. Lillard Hill, also of Ada, is with him.

W. A. Barrett and Edgar Allen Poe returned Friday from an extended trip through Texas and Western Oklahoma. They report dry weather almost everywhere they went and most of the corn ruined. On their first day out of Ada they made 325 miles.

Mrs. W. K. Chaney and son, Foster, were in Oklahoma City Friday where Foster attempted to enlist in the army, but failed to pass the examination. Foster returned last evening, and Mrs. Chaney will come down today accompanied by Mrs. Jack Sankey.

An all around capable man is more to be desired as a Corporation man than the technical expert. Art L. Walker knows the needs of the farmer, the business man, the oil man and the public generally. The Corporation Commission can employ the experts it needs.—Adv.

Word has been received by Miss Minnie McCain that her brother, First Lieutenant Frank McCain, is in a hospital in Italy with a broken ankle. The wound was obtained while in a running race and not in his work in the air. He states that he is being well cared for by the Red Cross nurses and is in a Red Cross hospital.

Longley Fentem, who has passed his examination for a commission in the Sanitary Department of the army at Camp Doniphan, is in the city visiting his parents, Mr. and Mrs. A. L. Fentem of West Ninth Street. Longley expects to be transferred from his camp before many days, and is hoping that he will get an immediate trip to France.

GENERAL RAIN FALLS OVER EASTERN OKLAHOMA
Muskogee, Okla., July 13.—A general rain fell over eastern Oklahoma Wednesday night which, following a drought of several weeks, will bring millions of dollars to farmers throughout the country. It was announced in railroad circles today that a good heavy rain fell all along the four main lines running out of Muskogee.

Crops in eastern Oklahoma have been looking exceedingly good this year, but if the hot dry weather of the past few weeks had not been broken the corn would have suffered greatly in the next week or two. Reports today are that the rain of Wednesday night was of untold benefit to the corn crop. Cotton, while not greatly in need of rain, will also be benefited, as well as other crops.

The general rain extended through northern Texas, Western Missouri and Arkansas and the southeastern

The Eyes of the School

SCHOOL

The school boy does not always realize the necessity of an education, the parents likewise, often fail to realize the necessity of giving the child necessary appliances for acquiring one, the eye is our main avenue of education, eyestrain headaches will never be relieved permanently except with glasses. Fifty per cent of all headaches are caused by eyestrain.

If you need Glasses you need our service. Phone 606, for Appointment, or call and see

7 DIRECTORS TO OPERATE ROADS

(By the Associated Press)
Washington, June 13.—Seven directors, each to manage all railroads within their territory and responsible to Director General McAdoo, probably will co-operate the railroads of the U. S. under the present system of government control. Three additional divisions were created today west of the Mississippi river. B. F. Bush, receiver for the Missouri-Pacific with headquarters at St. Louis will be in charge of southwestern operating division.

(S. O. S.—Buy W. S. S.)
Valuable Australian Wood.
Figured blackwood is mentioned by a consular report as perhaps the most beautiful of Australia's many ornamental hardwoods. The "fiddleback" and "mottled" grains are most sought, the grain of the former being not unlike that of the North American curly maple. The color, however, is different, being a rich golden brown. The panel effects are obtained by combining the figure with the plain blackwood.

Byrd's Mill Water Tonight.
Commissioner Deal states that unless something unforeseen prevents Byrd's Mill water will be in the mains tonight, repair on the flume have been sufficiently completed to make this possible.

FRENCH STRIKE HEAVY BLOW

GERMANS DRIVEN BACK ACROSS NATHIE RIVER. AMERICANS REPULSE ATTACK.

(By the Associated Press)
Paris, June 13.—French troops last night struck a heavy blow against German forces which have been advancing on the eastern wing of the new front of attack. The war office today announced that the French had hurled back the enemy to the north bank of the Mathe river. Violent combats continue between Villers-Cotterets forest and the Aisne river. The Germans here have progressed as far as Labersine, north of Cutry.

The Germans last night made a violent attack on the American sector between Boursches and Belleau wood, on the Marne front, but the Americans broke up the attack inflicting serious losses on the enemy, and held all gains they have made.

British Improve Positions.
London, June 13.—British troops last night advanced their lines a short distance on the Flanders front in the district southeast of Merris. The French on this front likewise improved their positions near Ridge wood. Prisoners were taken in both operations.

McAlester Boy Wounded.
Washington, June 13.—Today's army casualty list contained 188 names divided as follows: Killed in action, nineteen; died of wounds, nine; died of disease, four; caused, three died of airplane accident, one died of disease, four; wounded severely, hundred thirty-seven; wounded, degree undetermined, eleven; missing in action, four. William E. Parson, McAlester, Oklahoma, is among those severely wounded.

(By the Associated Press)

BRITISH TROOPS IN BIBLICAL LANDS

With the British Army in Mesopotamia, June 13.—(Correspondence of The Associated Press)
Warlike scenes again encompass places made sacred by Biblical stories or association with Biblical characters, along the British lines in the birthplace of civilization.

Going from Nahaf to Hillah, one passes Kufa, with its beautiful mosque, built upon the spot where according to popular belief, Jonah was cast up by the whale. Half an hour later, the traveler comes upon another shrine, the tomb of Ezekiel, revered by Moslem and Jew alike.

The next relic one passes is Birs Nimrud, a huge mound of earth with a rock-like brick foundation surrounding it, which according to the Tower of Babel. But here a scientist comes in with his disappointing researches and tells us that it is merely a piece of work dating no further back than Nebuchadnezzar. The tower remains in view until one enters Hillah. Here science and local traditions agree, and one may look upon the identical chamber where Belshazzar saw the handwriting on the wall.

The story of Noah and his flood is a tale easily credible in Mesopotamia. It nearly repeated itself in the first two years of the British struggle towards Bagdad. It takes little imagination to picture the dove vainly seeking a resting-place between Kut and All Ghari.

Those who survived the July of 1917 can easily believe the story of Shadrach, Meshach and Abednego, or if there is any doubt in their minds, it will concern only the artificial origin of the fiery furnace.

Babel, the mixing of the tongues and languages, is still in progress in Mesopotamia. Moreover, a new tongue is arising to increase the original confusion, a compact of English Arabic and French. In the new tongue, a railroad is called "hemmin-duffer," a corruption of the French "chemin-de-fer." An automobile is called "stronblli" which is as near as the Arab can get to the English pronunciation.

At Aden the Arabs have coined a verb from an English expletive—"damful-ni," to abuse, which is conjugated in all the Arab moods and tenses—"I damfuld you" "He damfuld me," with the proper Arab inflections.

The British soldier, too, is broadening his vocabulary. Two of the commonest Arab words, "imshi" or go, and "makoo," or there is none, have been adopted into army parlance. In Basrah one may hear the soldiers calling out for a "bill-bellam." Bellam in Arabic is a boat, and "bill" is the preposition "in," but Tommy Atkins is never a purist even of his own language.

(S. O. S.—Buy W. S. S.)

DEATH OF MRS. DAN SARRETT AT DENISON.

The body of Mrs. Dan Sarrett is expected to arrive this afternoon from Denison, and will be interred at Rosedale cemetery. Funeral services to be conducted by Rev. G. W. Beck. Deceased was the wife of Dan Sarrett, who lives south of Ada. She had been in failing health for a long time but began to improve and went to Denison to visit a son a week or two ago. She was a lady highly respected by everybody and during her long residence in this county had made many warm friends.

ANOTHER BOGUS PEACE TREATY

TURKEY BRINGS TRANS-CAUCASUS REGION TO TERMS, DISPATCH SAYS.

(By the Associated Press)
Amsterdam, June 13.—A peace treaty has been signed between Turkey and the trans-Caucasus government, says a dispatch from Constantinople. Previous to the signing of the Brest-Litovsk treaty between Russia and the central powers a separate government had been formed in the trans-Caucasus region with capital at Tiflis.

DESTRUCTION WROUGHT BY HUN INVADERS

(By the Associated Press)

Amsterdam, May 12.—The difficulties of the German advance over the devastated country around Armentieres are described by the correspondent of the Cologne Gazette.

"In Armentieres there is not a house that can be used," he says, "the streets are in ruins. It must be because there is hardly a piece of furniture to be seen. On the western side, by the workingman's quarter, lies a large new English cemetery, with countless graves beautifully decked with spring flowers. The gardens of the neighboring village the commanding height of Kemmel peers above the Flanders plain. Here the battle rages fiercely. We meet English prisoners and our own wounded. They describe the difficulties of the fight, above all the countless machine-gun nests of the British. But they are of good courage."

In the western suburb of Lillie the children were playing ball, but upon the extreme edge of the town we came on ruined houses, and then the wildest picture of war. We wondered how it was possible that men could hold out there. They did so under the soil—a thrust of the stick and it oozes forth. One can only go through trenches on boards. The dugouts stand a foot and more full of water. The breastworks of sand and earth must be lifted above the level and so afford scarcely any cover for shooting.

"The effect of constant bombardments has rendered the country impassable. Terrible is the working of our storm batteries around the region of the advance. The wire has entirely broken, the trenches have fallen in; there is water everywhere in small, great and colossal shells. Last year's holes have almost a fantastic air, with flowers ad wild things. A wounded man who fell into one of the holes with no one to aid him must surely drown.

"Communications here are only possible on concrete roads, which are built over the mud flats. Right and left of the causeways are broken stumps of trees, shell cases, bombs, bodies of horses and even of men. One road is an endless procession of wagons, carts, automobiles and columns of troops. German airplanes fly above to protect them.

Feverish work goes on all sides. The shell holes are filled with slabs of concrete and pontoons are thrown over holes that are too deep to fill. All this work has to be done under constant attacks from the air and from long-range guns."

(S. O. S.—Buy W. S. S.)

PUBLIC SPEAKING SUNDAY, JUNE 16

There will be public speaking on war issues at the following times and places on Sunday, June 16th, 1918, and everybody is urged and expected to attend at his school house, to-wit:

Lawrence 3 P. M.
Knox 4:30 P. M.
Oakman 3 P. M.
Cedar Grove 4:30 P. M.
Pickett 3 P. M.
Latta 4:30 P. M.
Colbert 3 P. M.
Jones Chapel 3 P. M.

Chairman of Council of Defense of each school district above named will see that these meetings are thoroughly advertised and will endeavor to get a large crowd out to hear the speakers.

FRENCH HOLD ADVANTAGE

INTENSE ACTIVITY HOLDS GERMANS IN CHECK. AMERICANS TAKE PRISONERS.

(By the Associated Press)
German progress along the Oise river is being counterbalanced by the French and Belgians on the western bank of the river front, which now has been extended to northeast of Villers-Cotterets. The heaviest fighting is taking place along the line from Rubescourt to the junction of the Oise and Matz rivers, with the French having the advantage on most of the sector. Although the enemy keeps up a desperate struggle here he has been unable to gain except at the junction of the rivers where he has crossed to the southern bank of the Matz and occupied Melincourt, about five miles north of Compeigne. In the center all German attempts have been broken up. On the left between Belloy and St. Maur the fighting continues to be of the most sanguinary nature. No engagements have yet developed east of the Oise. On the Flanders battle field the British have carried out raids in the Locre region. In Picardy German prisoners have been taken by Americans while northwest of Toul artillery fire continues strong.

LIVES OF MEXICAN EDITORS TURBULENT

Mexico City, June 13.—(Correspondence of the Associated Press)
Mexican newspapermen, as well as foreign correspondents, have been caught in the net which the government recently spread for what are termed "pernicious foreigners," eligible for deportation under Article 33 of the constitution, and disseminators of false news.

A policy of "forcible investigation" was the remedy applied to the editors of Redencion, an afternoon paper opposed to the government. This paper published stories of the alleged successes won by General Luis Caballero recently in Tamaulipas after he revolted against the government, and printed somewhat alarming stories of conditions in that state.

To prove its contention that the news printed was false, the government provided the two editors with an escort of a general and twenty men and sent them on a trip through Tamaulipas by way of Monterrey to Tampico. Upon their return after a journey that lasted about a fortnight, the editors admitted they had found the conditions prevailing to which they had referred. But, by implication, they stated it would have been foolish for them to expect to make an independent investigation with the escort that accompanied them. The editors concerned are Alfonso Barrera Reniche and Manuel Bauch Alcalde.

Another editor whose arrest has been ordered and whose paper, El Hombro Libre, has not appeared for some time, is Hugo Sol. He attacked the president and the administration. Attorney Emilio Ruiz Quijano, responsible for the publication of Tili-Tili, (Ring the Bell) is also in the toils. His sheet, a weekly, published a number of cartoons of a nature that, aside from their political significance, would never have been permitted to pass through the United States mails. The cartoons were violently anti-governmental.

Cauterized anti-government, which appeared more as a dodger on the streets than as a newspaper, has ceased publication for some reason which has not yet been explained publicly. The "forcible investigation" treatment was threatened in the case of reporters for El Universal, which printed stories of the excesses committed by the bandit, Jose Ines Chavez Garcia, in Michoacan and Jalisco. The governor of the federal district, General Alfredo Breceda, declared that, if the paper continued assertions of this kind, he would furnish the writers with a horse, rifle and provisions and send them on a trip through the territory they said Chavez Garcia controlled in order that they might investigate conditions for themselves.

Since Felix Palavicini, founder of Universal and leader of the anti-German, pro-Ally, press campaign in Mexico sold his controlling interest in Universal and left for the United States, for what he considered good reasons, stories of this kind have not appeared in Universal. Needless to say the prospect of interviewing Chavez Garcia had no charms for any employee of Universal.

No Pro-German papers of the half a dozen published here, nor any employee of these papers, has been molested. These papers, however, confine their attacks to the Allies and the United States in particular, and enthusiastically support the present Mexican administration.

We are not in possession of information concerning the war activities of the women of other parts of the United States, but we don't take much stock in the recently returned lady doctor who says the average American woman is a slacker. The ladies of Pontotoc county have done and are still doing an immense amount of work for the Red Cross and in every other line where their services are called for. It needs no urging to get them out, for all are thoroughly patriotic and eager to do their utmost at all times. If there is anything lacking they have not been told of it or they would be busy in that line also.

THE CANADIAN BRIDGE.

In view of the fact that some objection has been raised to the low water type of bridge across the Canadian contracted for by the County Commissioners of Pontotoc County, the News feels that it is only fair to all concerned to state the conditions under which the contract was let. To sum the situation up it was a low water bridge or none.

The entire matter was subject to the approval of the state highway commissioner, since the state is aiding in building the bridge and it was useless to do anything without such approval. After an investigation the

department representative who was signed declared that he would not approve a high water bridge costing less than \$53,000, as the department would not approve any but concrete piers. This put a veto on a high water bridge, since the cost was prohibitive. The department approved the low water bridge, which is similar to two others in the state that have stood the test. While the commissioners were strongly in favor of a high water bridge they felt that the opportunity to get any kind of bridge was too good to let pass.

The county had \$9,000 of state highway money coming which will be applied, the highway department added another \$9,000, Seminole county agreed sometime ago to pay \$10,000 leaving Pontotoc with only \$5,451 to raise by taxation. Had action not been taken before July 1 the county would have lost its \$9,000 of the state fund.

Naturally everyone would prefer a highwater bridge, but since this is out of the question it is certainly best to take what we can get rather than get nothing at all when a bridge is needed so badly.

A hearing is being held at Oklahoma City today on how the people like the new system of time and if they would like to move it up another hour. Appears as if that this going to extremes. One hour during the long days is not so bad, but two hours is going altogether too strong.

FRANCIS.

J. H. Vickery has his business building completed and has moved his stock of confectionaries in and now has one of the best confectionary stores in the county.

Some of our people are very busy drilling for oil and we all hope that the effort will prove a success.

Seventeen of our boys registered the 5th of June and we believe that Congress should raise the maximum age to 40 years.

As soon as T. E. Miller gets the first story of his building complete, A. Goeter will move his stock of dry goods over there.

The home guard company is drilling almost every evening and it is astonishing how these old fellows are getting a hold on the work. They are under the skillful management of good trainers and they are taking great pleasure in the training.

Frank Blankenship has remodeled the back part of his drug store, changing his prescription case around and has made more space for an ice cream parlor.

A few weeks ago we were shivering from cold but now we are burning from heat. But we are glad to see this kind of weather for it is making corn, cotton, wheat and oats.

It is reported that a 3,000,000 foot gasser was caught in yesterday three miles southeast of Francis.

ALIEN PROPERTY IN STATE SOUGHT

Oklahoma City, Okla., June 13.—(Special)—A diligent search for alien property will soon be instituted throughout the state of Oklahoma by county councils of defense on authority of the state council and at the request of the national alien property custodian. This will include every piece of property and money owned by persons residing in enemy countries or corporations incorporated in enemy countries or by persons living in countries allied to the enemy. The council will call upon every person who knows of such property or money to make an immediate report to the county or state council. This includes all kinds of property, tangible or intangible, money, cattle, securities, lands, accounts receivable, etc., belonging to the enemy. Only in this way can enemies be prevented from using their property and money against America and her Allies.

SUNSHINE.

The rain Sunday evening flooded our community. It was bound to have damaged oats in low lands, for but few of them had been cut, and some had already fallen, and the ground too wet to run the binders. Corn is fine. Quite a lot of cotton still in the grass and a great cry for hands.

Everybody is drier today. Every community is like ours, surely will be relieved from this dipping soon. Our stock is clean and has been for two years.

Since Crisp, the popular president of the Onward Council of Defense, was visiting with Q. F. Hooks Saturday and Sunday.

Lois Hooks and Theo. Davis of Byrd's Mill, were visiting in our community Saturday and Sunday.

Elder W. E. Davis, also of Byrd's Mill, preached an able sermon at Sunshine Sunday. Elder P. A. Templeman, the pastor was prevented from filling his appointment at night on account of the heavy rain.

Sunshine has an ever-green Sunday school, under the able superintendency of G. A. Pitt.

Travis Heathman, who is well known in this community and around Koff, and the widowed daughter of Mr. Pryor were united in marriage Friday.

The county commissioner, W. H. Brents, is smiling over the arrival of a new comer at his house. Mr. Brents is an advocate of good roads and progression, and he is progressive at home.

ADAMS CASH GROCERY

SUMMERS CHAPEL NOTES.

The heavy rain that fell here Friday, was very much appreciated. Crops are certainly fine, especially corn.

The roads between here and Stratford, are very muddy. Cars can't pass over them.

The pie supper at the Chapel Saturday night was a decided success. The house was crowded despite the mud and threatening weather. We had an excellent and appropriate program for which we wish to thank Mrs. Fannell and Mrs. Hooper. We also wish to thank those Maxwell and Galey folks. We certainly appreciated their help. The supper brought \$68.30.

The next meeting of the Council will be the 22nd of June. We will have a small program, and also hope to have a speaker.

Albert and Fred Staats spent Saturday night and Sunday at Stratford visiting relatives.

Mr. Jack Wood and family of Yeager were visiting Mr. and Mrs. Keener, Sunday evening.

Several ladies in this neighborhood have been sewing for the Red Cross. I know it is a busy time, but I think we can devote at least two hours each day to the work. Anyone wishing to help any in this work can get the garments all ready cut and the thread to make them with at Mrs. J. A. Fannell's and Mrs. J. V. Staats'.

The teachers for the next term of school at Summer Chapel are Mr. J. W. Roper, principal, and Miss Minnie Wall, assistant. They are both well and favorably known at the Chapel, both having taught here before.

STORY OF MUTINY AMONG GERMAN SEAMEN

London, June 13.—(Correspondence of The Associated Press)—Seven thousand German sailors participated in the mutiny on board the dreadnaughts of the German High Seas Fleet at Kiel in October last and had planned to bombard and destroy the batteries at Wilhelmshaven and take the whole fleet to England under a white flag, according to a story of the mutiny from a writer in Germany, which is published in a Weekly Dispatch.

"The mutiny," he writes, "was the result of unjust treatment, short leave, bullying, and last, but not least, bad food. The food consisted of potatoes, turnips, mangel wurzels flavored with parsley and salt. Little meat was rationed out, and that of very poor quality. The bread was very bad in composition and was often so mouldy and old as to be uneatable."

"As the men were sick of the whole business they decided to revolt. The leading sailors were the organizers of the affair, and all the battleships decided to join. The men held their meeting on the beach. Seven thousand joined the movement and signed a secret document to stand by each other."

"The plan was at a given signal to throw officers overboard, to bombard Wilhelmshaven, so as to destroy the batteries there, and then sail out and take the whole fleet over to England under the white flag. Before the day fixed had arrived, however, two of the sailors betrayed the plan, and as various men and leading sailors began under one pretext and other to be sent away from ships, the others suspected that the plot was known. They therefore determined to take the bull by the horns."

"The revolt started on the Koenig Albert (dreadnaught) and as the commander of that ship tried high-handed police measures he was shot down. In falling from the commander's bridge he broke his neck. The other officers were also got rid of. The Pillau joined in, and each ship landed 700 men. They marched through the streets of the town."

"The crews of the Rheinland, Grosser Kurfurst (dreadnaughts) and Elsass (pre-dreadnaughts) followed suit. Here they received a summons from one of the captains to return to their duties and obey orders. The sailors sent back the message, 'The Council of Sailors has decided to eat first and obey afterwards.' The captain, who a naval Solomon in his way, sent them a soothing message and invited them all to a good meal, and this got them in hand."

"In a few days all was quiet again. In the sequel 400 men were arrested and punished in various discreet ways, the authorities evidently fearing any wholesale measures, but although discipline has been restored there is still a deep feeling of discontent."

En Route to France.

By Vanda E. Bleck.

Composed May 29th, 1918, on board a train, between Denison and Whitesboro, Texas, en route to Camp Bowie—Y. E. B.

We love our home and country, in it we feel secure, Tho' we may meet with troubles and trials here endure;

We love our flag, Old Glory, for it we fight and die, May it wave forever, for freedom lifted high.

For home comes this sad parting, our country calls us now, Before the despot never, as chattels, will we bow;

With insults they have challenged our faith in liberty, With God as our defender, the world that faith shall see.

In camp, at sea, at battle, we'll often think of you, And know in thought and action to us you're always near;

And while we're bravely fighting beyond the rolling sea, You'll "keep the home fires burning" for world-wide liberty.

And when we've cleaned up Europe and smashed each monarch's crown, There'll be the sweet home-coming, and joy before unknown;

The soldier and his loved ones, with all who've done their best, Will join in great rejoicing that faith has stood the test.

THE MODEL

CARNIVAL SHOWS

GET NO COMFORT. Oklahoma City, Okla., June 13.—(Special)—Owners of carnival shows may expect no help from Washington in their protests against the plans of many counties in Oklahoma to discontinue these exhibitions for the period of the war. The Council of National Defense, replying to wires sent by two large carnival companies whose itineraries included extensive

engagements in Oklahoma, says: "Regulations such as you mention are entirely within the control of the State Administrations and State Councils of Defense. Authority in Washington cannot undertake control of regulations affecting local situations."

The Oklahoma State Council of Defense has recommended that all county councils become active in the campaign against carnival shows.

A Call to Every American

War Savings Stamps are a call to the thrift and patriotism of every American—a call that must be met by every man, woman and child who shares the blessings of this free country, if we are to carry on this war as a united people.

What They Are

War Savings Stamps are the most democratic form of government securities ever issued—a profitable, simple and secure investment backed by the entire resources of the government and people of the United States. They steadily increase in value from the date of purchase to the date of maturity—this increase is guaranteed by the government.

These stamps are issued in denominations of \$5.00. Thrift Stamps 25 cents each.

The \$5 War Savings Stamps

The \$5 War Savings Stamp is a stamp for which the government will pay you \$5 on January 1, 1923. Its cost to you if bought in February, 1918, is \$4.13 (this cost increases one cent each month during 1918)—that is 4 per cent interest, compounded quarterly.

Simple, Secure

You don't have to figure interest, nor clip coupons, nor worry about the safety of your loan; the certificates are not transferable, and behind them are the wealth and taxing power of the richest country ever known. You can get your money back, on 10 days' notice, any time you need it.

Service

Every American is alive to the necessity for unselfish, efficient service to the nation.

Where men once co-operated in the running of a machine or a business, whole communities and sections of the country are now developing team-play on a big scale.

In so vital a national agency as telephone communication, the necessity for co-operation is quite as positive. If the unprecedented private demand and tremendous Government requirements are to be successfully met, the public must recognize the part it should play.

The Bell Telephone operating force can be counted on. And the fullest enjoyment of the service will be realized if the public will remember always that each operator is entitled to the same consideration and plain courtesy that she would be accorded if she were addressed face to face.

Southwestern Bell Telephone Co.

ON YOUR WAY TO WORK TODAY BUY A WAR SAVINGS STAMP

Sheep in the United States averaged more than 51, 600,000 head during the three years before the war, but since 1914 have gradually decreased to less than 48,500,000; a falling off of about a million a year.

and White House expenses, including his salary, is \$260,000 annually. Of this, \$75,000 is salary, \$25,000 traveling expenses and \$160,000 for the other expenses.

Your Bond May Bring Him Home in Safety

The supreme tragedies of war are not enacted on the battlefield, but in the home.

Above the shouts of command and encouragement, the roar and shock of the great guns, and all the swelling tumult of battle which bear the husband and father to a hero's grave and a martyr's glory, there rise the weeping of the bereaved wife and the cries of little children deprived of a father's love and care.

American fathers are now on the battlefronts of France. Many must fall; how many depends upon us who remain safely at home.

A single Liberty Bond will help to save a soldier's life, your soldier's life, and bring him home in safety to those who hold his life far more precious than their own.

Bowser Prepares for War

He Is Going to Build a Fort

(Copyright, 1917, by the McClure Newspaper Syndicate.)

Mr. Bowser had come home looking very solemn and earnest.

It was when they had finished their meal and gone upstairs and he had smoked half a cigar that he began packing up and down and finally explained:

"Mrs. Bowser," he began, "do you know that I am almost a criminal?"

"Have you almost killed some one?" she queried.

"Worse than that. If you could kick higher than a toe-string I should ask you to kick me all around this room.

"I'll Be Found Behind It."

I have done a reprehensible, if not a criminal thing. For weeks and weeks I have exposed your life to danger."

"Do you mean that the gas meter may blow up, Mr. Bowser?"

"No, ma'am; I mean that all this howling about war and unpreparedness has been passed by me, and I am today as helpless as an infant. The United States was not prepared for war, and Samuel Bowser is not."

"But what could you do, dear?" asked Mrs. Bowser.

"Well, I will go over the case for a minute. If the Germans land troops here they will naturally land at Fritz's dock. He is a German, you know, and he will have sent word to them that they can land at his dock and he will make no charge. Six or eight thousand troops will land and march right up Joy street until they come to the corner of ours. There they will halt until the general in command asks where I live. They will scare some boy

morning, and I shall work around home until it is finished. I shall build a fort to protect this open space. It won't be a fort after all. It will be a breastwork facing the street, and on this will be mounted cannon and quick-firing guns, and, when the hour of peril comes, I will be found behind it with a rifle in my hand and five or six flags flying defiant."

"Haven't you planned a pretty big thing?" asked Mrs. Bowser, in doubtful tones.

"Yes, it is a pretty big thing, but I can carry it out," was the reply. "The breastwork will be made of sandbags, and I must see a contractor the very first thing in the morning. I must also go to army headquarters and see about cannon, quick-firing guns, rifles and ammunition. Not until that breastwork is finished and ready for business, shall I draw a long breath of relief. What are you getting out pencil and paper for?"

"Oh, just to figure a little," was the reply. "We want to see how much it's going to cost to win the glorious victory of the Germans and save our lives. Now, then, how many sand bags will you use?"

"About 200, and each bag will weigh 200 pounds, I don't see any use in figuring."

"Well, it won't do any hurt, Mr. Bowser. You get a contractor. He has got to buy 200 stout bags, and have them filled, and drawn here on his truck and delivered. I don't believe you can get them at less than two dollars a bag. They may have to be drawn a great distance, don't you see?"

"Then," continued Mrs. Bowser, "you must have at least one man to assist you in placing the bags, and you can count on three hard days' work—maybe weeks. You must add all this into the expense, and you will probably have two cannon. What do cannons cost a piece, Mr. Bowser?"

"As I told you this figuring is all bosh," sulkily replied Mr. Bowser.

"I don't believe you can get them for less than \$500 each, and you never loaded nor fired a cannon in your life. It looks to me as if you would have to hire an artillery company. And I read in the paper that a quick-firing gun cost \$250. You will want two of them, and about 10 rifles at \$10 a piece."

"Are you done?" sulkily demanded Mr. Bowser, as Mrs. Bowser stopped to wet her pencil on her tongue.

"Just a minute, Mr. Bowser. There is the ammunition for all of these arms—that is going to cost a pretty penny. There is no doubt but that you will kill at least a thousand Germans, but let us see how much it will cost you a head."

"We won't see anything of the kind!" half shouted Mr. Bowser. "I am going ahead and build that fort, and an hour before the Germans come you can start out on a visit to your mother and leave me here alone. I shall perish defending that breastwork."

"Just a word, Mr. Bowser. If, when the Germans come and before they have drawn down the gates, you asked the commander to step inside and see

"Shall Perish Defending That Breastwork."

into pointing out our house and they will come down here with a rush. Do you see it, Mrs. Bowser?"

"Hardly," she replied, "what should they want of you?"

"Why, I have defied them tooth and tongue for the last year. Now, then, our house stands almost on the west line of our lot. On the east side, there is an open space of 30 feet. There are gates by which a coal cart can come in at the front and deliver the coal, and go out of the alley gate in rear. Is this open space defended?"

"Why, does it need any defense, Mr. Bowser?"

"If the Germans come you will see. They will tear away the front gate in a jiffy, and pour in and have the house surrounded in sixty seconds. You know what that means. I am reprehensible and almost criminal because I did not see this thing long ago and prepare for it. Mrs. Bowser, I ought to be sent to jail for two or three days!"

"But now that you see it at last you are going to prepare, are you?" was the query.

"I am going right at it tomorrow

what sort of a trap you had arranged for them, wouldn't they surrender to a man and permit you to march them off to the police station?"

"Woman, don't talk to me. I never should have talked to you about this. Not a word. This comes of my taking you into my confidence. We will say no more about it."

"I just want to ask one more question," said Mrs. Bowser. "Your breastwork will front toward the street. Your artillery will all point that way. The space between your breastwork and the alley will be all open. Have you thought the Germans might come down the alley and take you in the rear, and you couldn't fire a gun at them?"

Bowser gave a start and jumped to his feet, and without a word he left the house. An hour later, and a mile away, he was standing leaning against a shade tree when a patrolman stopped before him and said:

"Come, old man, be moving along. You act to me like a man who is afraid to go home and face his wife, but you can't loaf around the streets. Go home and beg her pardon, and tell her you'll never do it again."

WRIGLEY'S

—is the great war-time sweetmeat.

—the benefit, the pleasure, the economy of a 5c package of WRIGLEY'S

CHEW IT AFTER EVERY MEAL

The Flavor Lasts

THREE

KINDS

If We Understood.

If we knew the cares and trials
Knew the efforts all in vain
And the bitter disappointment
Understood the loss and gain—
Would the grim eternal roughness
Seem—I wonder—just the same?
Should we help where we now hinder,
Should we pity where we blame?"

Ah! we judge each other harshly,
Knowing not life's hidden force;
Knowing not the fount of action
Is less turbid at its source;
Seeing not amid the evil
All the golden grains of good;
And we'd love each other better,
If we only understood.

Could we judge all deeds by motives
That surround each others' lives
See the naked heart and spirit
Know what spur the action gives,
Often we should find it better
Purer than we judge we should.

We should love each other better,
If we only understood.
—Rudyard Kipling.

To have a fine healthy complexion—the liver must be active, the bowels regular and the blood pure. All this is brought about by using HERBINE. It thoroughly scours the liver, stomach and bowels, puts the body in fine condition and restores that clear, pink and white complexion so much desired by ladies. Price 50c. Sold by Bart Smith, successor to Ramsey Drug Co.

ADA ARMY OFFICER GIVEN PROMOTION

Capt. Raymond O. Barton has been promoted to the rank of Major in the regular army. He is now stationed at Camp Doniphan where he is an instructor in the machine gun corps. The young officer is the son of Judge and Mrs. C. O. Barton and was appointed to West Point by Congressman Carter on the advent of Statehood. He has had a varied experience since entering the army, being stationed two years in Northern Alaska, thence transferred to Plattsburg, N. Y., where he was an instructor in the first officers' school of instruction the year before the United States entered the war, and last year being in charge of the school there, later being ordered to his present place.

THIS WOMAN SAYS MOST AMERICAN WOMEN LOAFERS

Chicago, Ill., June 12.—American women, speaking generally, were declared to be "loafers," struggling along in high-heeled shoes and unable to work even if they wanted to," by Dr. Esther Lovejoy, former Health Commissioner of Portland, Ore., in an address to the Medical Women's National Association today.

"While the women of France and England are staggering along 'over there' under the awful loads imposed by the war, the women of America are going about in high-heeled shoes wanting to be entertained by the story of the conflict," she said. Dr. Lovejoy, who has just returned from a six months' visit to France, declared that the women of Germany made possible the progress of the war, "for," she said, "if the women of Germany had laid down their arms and ceased doing the work of the men the war would have been over long since."

Here the big thing is for the women to replace the men in order that our full man power may be sent to the aid of the allies. The Southland is crying for harvest hands, a splendid place for women golfers and tennis players, for we only have to be as good as our grandmothers, who made this great land for us to loaf in.

"If the women of America would wear winter clothing in winter there would be no call for fuelless Mondays, and this is one of the days in which the women in America can help win the war. But no, they sit around in clothing fit only for the hot dog days and burn tons of coal to keep them warm, thus wasting coal to preserve the dictates of fashion."

Dr. Lovejoy then spoke of the "Eaters of France," declaring that the Germans, having found themselves unable to conquer the men of that Nation are now trying to conquer its mothers. More than 350,000 girls over 16 and boys over 14 years of age have been detained by the Germans in the seized provinces of France.

"Three rules govern the Germans in the retention of the civil population," she declared. "Those retained must be of value for fighting, labor or breeding. I know it is shocking to talk about the women in this way, but I tell you that the people of America must know these things and be strong enough to know them now."

BURK'S

the lower house to create a national election board with powers that will curtail materially those now possessed by the president. The house first proposed to create a board of thirty-one deputies, to settle all election contests, fix the limits of the various election districts and alter them whenever it was deemed advisable.

This plan of the house majority, which in general opposes the president, met with a check in the senate. The upper house, on receiving

the deputies' proposals, decided in favor of an election board for each state, composed of seven members, none of them of necessity government or state officials.

Either plan, if enacted into law, would limit the chief executive's present powers, for he now can alter any election district and control, in a measure, the election of congressmen. Up to the present time the gulf between the plans of the two houses has not been bridged.

The National
Thrift Habit

A Mighty Good
Habit to Acquire

It Leads to Success

The most satisfactory way to acquire the
National Thrift Habit is to save all you
can every week.

Buy United States Government War Savings Stamps

Get a Thrift Card today—at any bank or post office. Save as many Thrift Stamps as you can. They cost 25c each. Paste them on the Thrift Card. Fill it up as quickly as you can and exchange 16 Thrift Stamps plus 12 to 23 cents, depending upon the month when changed, and get a \$5.00 War Savings Stamp. Then repeat the process as often as you can—systematically—every week.

War Savings Stamps are the same as United States Government Bonds, in denominations of \$5.00 each. They pay 4% interest, compounded quarterly.

They have the United States Treasury back of them. There's no reason why you shouldn't start this National Thrift Habit at once—today.

Put your good intentions into actions. They alone will count. Thrift will lead to Victory.

The cooking schools nowadays are recommending MAZOLA

IT'S fortunate for America at this time that in schools and at home everywhere girls and housewives are using Mazola—the sweet, wholesome oil from Corn. Mazola is an improvement on lard, butter or animal fats in frying and for cooking purposes. It is a pure, rich food-oil—with a taste and flavor all its own. As a shortening, Mazola makes perfectly delicious bread, cakes, pastries and doughnuts. Being an oil and not a solid fat, Mazola requires no melting. It is ready to use. On salads and for mayonnaise dressing, Mazola is perfectly delicious—as the finest Italian olive oils, and better than ordinary oils.

FRENCH TOAST
Dip one egg until light, stir in one-half teaspoon salt and one cup of milk. Have ready about six slices of stale white bread cut one-half inch thick. Dip them in the egg batter; turning until well coated with the milk. Let them drain and dip again if any. Put into a shallow frying pan enough Mazola to cover the bottom, and when hot stir in one-fourth teaspoon of salt, lay the bread slices in and cook carefully until well browned; then turn them over and when the other side is browned remove to a hot dish and serve at once. Serve as plain egg toast, or spread the slices with orange marmalade, jelly, or any hot stewed fruit, or sautéed banana.

Mazola is always uniform. Its preparation is scientific and exact. For sale in pints, quarts and gallons. (The large sizes are the most economical to buy.) Get a can from your grocer today.

Ask your grocer for the valuable Cook Book especially prepared for Mazola users—or write us direct—FREE.

CONTROL WATERMELON DISEASES BY SPRAYING
Washington, D. C., June 13.—Thorough application of Bordeaux mixture will prevent the spread of anthracnose, downy mildew, and a new disease of watermelons known as Mycosphaerella blight, according

to specialists of the United States Department of Agriculture. The control of these diseases means an increased yield and a better quality of fruit. Great care should be taken to follow directions in making the mixture. Use the correct amounts of

bluestone and lime, as a variation may ruin the vines. Be certain that the lime has not air slacked. Directions for making the Bordeaux mixture may be found in the United States Department of Agriculture's Farmers' Bulletin 821, Watermelon Diseases, free on request.

Be Regular in Your Habits

Set aside so much a day or so much a week for the purchase of Thrift or War Savings Stamps. If you do not save regularly the chances are you will never save at all. A Thrift Stamp a day means that at the end of the year you will have \$91.25 saved up, wisely invested and drawing good interest. A Thrift Stamp a week means \$13 at the end of a year. A War Savings Stamp a week means \$260 laid away in the world's best security. Think of the money you wasted last year. Save it and invest in War Savings Stamps this year.

CLOER, COMMERCIAL HOTEL

INFORMATION CONCERNING WOMEN'S WORK

So many young ladies have made inquiries about war work in France that the Y. W. C. A. has issued the following bulletin of information. In addition to Red Cross nurses 10,000 women are employed behind the lines as helpers and in other capacities.

The War Work Council has been asked to send to France a number of women fitted to work in the Association Canteens. This will include helping to prepare and sell light refreshments to the soldiers. The main idea is to create a homelike atmosphere and bring as much cheer and comfort to the camps as possible. There will be incidental work of a varied and sometimes trying nature; so only those who are equal to emergencies and ready for anything should consider going. This work offers a unique opportunity to women of initiative, good judgment, and the spirit of service.

The general plan is for the women workers to be assigned by twos to the canteens whenever possible. They will probably live in villages near the camps, but no promise as to exact location can be made beforehand. No one may be sent who is not experienced, self-reliant, in good health, and willing to endure the loneliness and hardships that life in an isolated village in France may mean. All canteen workers must be prepared to obey orders.

Candidates between the ages of 30 and 45 years are desirable and under no circumstances will any one under 25 years be considered. Candidates must be in perfect health and must pass a prescribed physical examination.

The government will not grant a passport to any woman under 25 years of age, nor to any woman whose husband, son or brother is serving under the colors either abroad or in this country. No woman may be appointed for overseas service whose husband or son is in Y. M. C. A. or Red Cross service overseas.

A knowledge of French is very helpful but not necessary. Candidates are asked to volunteer for one year. This work is entirely voluntary service, since the Council is not in a position to offer salaries, although of course financial independence alone does not qualify one for service. Where necessary, the Y. M. C. A. will assist with the transportation and living expenses of its workers, but there is always a minimum expense to each candidate of \$500 (\$20 a month for incidentals and emergencies, and \$140 for initial equipment.)

Personal interview is always necessary without guarantee of final appointment, and the candidate comes to New York City entirely on her own responsibility. In all cases, the application should be filled out and sent to this office before the interview takes place.

Anyone wishing to communicate on the subject may address: Mrs. Wilfred Worcester, Women's Overseas Section, 347 Madison Avenue, New York City.

AMERICAN GIRL ESCAPES A COSSACK.
An American girl traveling alone recently through Siberia was awakened at 6 A. M., one morning, when the porter ushered an all-Russian Cossack into her stateroom. The girl was Miss Madeleine Doty, who was on her way around the world for Good Housekeeping. She tells about this experience in the current issue as follows:

"It was 6 A. M. when I awoke with a start. My stateroom door had been flung open. The Russian porter was showing a Cossack soldier into my compartment. I sat up in my berth and let forth a flood of English; I gesticulated wildly, but the Russians only shook their heads. Then the Cossack dismissed the porter, closed the door, and locked it. Tales of Cossack brutality surged through my mind. I felt for my money under my pillow. My heart beat violently. The soldier was distinctly disagreeable. He saw my discomfort and enjoyed it. He gathered up my scattered garments and flung them into my berth. Then he slowly took off his coat and shoes and climbed into the upper berth. I heard him making his preparations for sleep. I stillened breathlessly till all was still. Then I stealthily began to put on my clothes. When dressed in my coat and shirt I crawled out of the lower berth and stood up. The soldier was lying above me with eyes wide open. He puffed at it leisurely and grinned at me amusedly. A wave of resentment seized me, but I picked up my comb and brush and began quickly to do up my hair. My hand trembled. I gathered up my possessions, unbolted the door, flung it open, and in a moment was out in the corridor. But it was dark as night outside. Not until nine a. m. would light appear on the horizon. Every compartment door was closed and locked. At the end of the car the porter snored peacefully in his bunk. I stood in the swaying train corridor and waited for the dawn.

"I found out later, that to the Russians on the train, I seemed finicky. The Russian Revolution was raging. Life had gotten down to the elements. There was no room for conventions."

Jack and Gill Up-to-Date.
Fritz and Bill went up the hill. To steal a world between 'em. Fritz fell down and swore "py tam" Bill's crazy else he's beaten.

Bill and Fritz will lose the mitts, Pollu and Sam and Tommy. Will scrap the Krupps and strafe the Hun. They will! You bet your money.

Kaiser Bill fell down the hill. He took the count. He had to. We'll stuff his skin and show the world. Its Hohenzollern make-up.

So, watch the hill also the Bill. In France they'll lose the Rhine, sir. Their tainted blood will flow a flood To expiate their crime sir.

We then will build upon the hill, A monument to fame, sir. Nor Hun nor Turk nor Austro blood Will show a single name sir.

COMPARATIVELY FEW ACCIDENTS AT AERIAL CAMPS.

An Aviation Camp in France, May 4. (Correspondence of The Associated Press).—Criticism in one American newspaper of the American Air Service on the ground that there has been an unnecessarily large number of accidents has evoked a retort from Plane News, published by the American aviators in training here.

Records show, says the aviators' organ that about sixty men "made the supreme sacrifice" last year while in training. One American newspaper, it asserts, has endeavored to account for these fatalities as having been caused by "cramped space" which the men have to fly in and has asked whether "the supervision of officers who know their business."

"Only a small percentage of the fatalities have been caused by collision and other causes were of various nature which were beyond any government control," says the Plane News. The majority of instruction centers have outlying fields where men in the various stages in training are confined.

"The officers in charge are as competent as can be had. Many are training and nearly all have become expert aviators themselves. They know, if anybody ever will, the dangers of flying and the necessary precautions to take."

"Tight places" are bound to confront every pilot in the course of his training and are the finest "examples" in the world if the aviator is able to navigate the danger with success, for it gives him the needed confidence for similar experiences in the future. Safe flying is largely a matter of intuition, which sense can only be acquired through constant practice of long duration.

"The training of an aviator, from the beginning, assumes practically the same dangers as actual service in the air at the front, which is not the case in the training of any other branch in the service. Therefore it is little wonder that the loss of a few men intraining should stir the public to believing that careless ness has had its part in causing the losses."

"The machine a pilot begins on is safer than each succeeding machine he is taught to handle and its significant to note just what training will do for the flyer. For instance, the casualties for the most part come when the pilot is operating the largest and safest planes. Few casualties are recorded of the lighter and faster types which are exceedingly hard to handle and susceptible to the least wrong move on the part of the pilot."

"Considering that in practice there is practically the same danger element as there is in flying at the front, the percentage of casualties is very low in comparison to the great number of flyers in training. Were the actual figures made known of just what is being accomplished in daily flights, landings, mileage and acrobatics, surprising facts would be revealed as to just how wonderful a progress is being made in American aviation with such little loss."

GERMANS WILL LEAVE BELGIUM

HERTLING DENIES HUNS INTEND TO HOLD CONQUERED COUNTRY PERMANENTLY.

(By the Associated Press)
Copenhagen, July 13.—Denial at the German embassy here today by Imperial Chancellor Count von Hertling in a speech before the Reichstag main committee Thursday. "The present occupation only means we shall have a pawn for future negotiations," the chancellor said. "We have no intention to keep Belgium in any form whatever."

VON HINDENBURG REPORTED DEAD

SAYS DEATH FROM APOPLEXY FOLLOWED INTERVIEW WITH KAISER.

(By the Associated Press)
Amsterdam, July 13.—Field Marshal Von Hindenburg is dead, according to the newspaper Les Nouvelles. His death is said to have occurred after a stormy interview with Emperor William at Great Headquarters at Spa. The emperor and the field marshal are declared to have had serious differences of opinion concerning the German offensive toward Paris. The violent interview occurred May 16, Les Nouvelles says, and it was followed by an apoplectic stroke ultimately resulting in Von Hindenburg's death from congestion of the brain. The newspaper says the information was obtained from good sources in the occupied district of Belgium. Field Marshal Paul Benechendorf Hindenburg was seventy years old last September 28. He was promoted from command on the Russian front after the victorious battle of Tannenberg to field marshal August 30, 1915, in succession to General von Falkenhayn.

REVIVING TRAFFIC ON MISSISSIPPI

La Crosse, Wis., July 13.—The plan to utilize the Mississippi river as a medium of transportation is being pushed rapidly and with an industrial survey of the river valley in progress, a fleet of government barges with their noses turned toward northern ports from St. Louis and an \$8,000,000 appropriation bill pending in congress, an early return of lumbering days activity on the stream is confidently expected. To relieve railroad congestion was a prime object in the movement for reviving river traffic, which was led by Congressman John J. Esch of La Crosse and others. The cargo capacity of the first fleet of government barges is 4,500 tons, and E. F. Goltz, president of an iron company, has leased the fleet which will carry iron ore on return trips south from St. Paul, Minn.

The revival of river traffic will bring into existence a new style of boat to replace those which have plied the stream half a century or more, according to plans. The new craft, some of which are in course of construction will be barge like, wide of beam and shallow depth, driven by high powered engines, probably of the gasoline sort. This would assure greater speed, more freight space and less danger of being run aground on bars. The present day picturesque steamboat, with its several decks and stern or side wheels will not disappear at once, however. They will continue until they arrive at a useless stage, especially in excursion traffic.

The Helen Blair was the first and only packet of the season to engage in the freight traffic. She carried agricultural implements, paints, oils and miscellaneous merchandise.

Revival of traffic will necessitate erection of docks along the river at the principal ports. St. Paul is first to announce such a venture, having built docks with a large crane capable of handling 2,000 tons a day. Other towns are expected to do likewise. La Crosse has no docks but has space for unloading of merchandise. Hastings, Lake City, Red Wing, Winona, Prairie du Chien, Dubuque and Davenport will make arrangements to handle river freight.

Charles H. Haug, of St. Louis, who is making a tour of the river, has found nine chief distributing points along the stream. They are Minneapolis, Red Wing, Winona, La Crosse, Dubuque, Davenport, Clinton, Rock Island and Moline. These towns, it is predicted, will play a leading role in the development of river traffic.

Mexico is taking steps to reclaim millions of acres of arid lands in the northern part of the republic.

FRENCH HIT HEAVY BLOW

TAKE 500 PRISONERS AND ADVANCE LINE A MILE IN DRIVE.

(By the Associated Press)
For the first time in the recent campaign inaugurated, the French have struck in force in Picardy field. Along the Aisne river, northwest of Montdidier, the French advanced their lines more than a mile on a three mile front capturing over 500 prisoners. This blow, like recent ones by the British astride the Somme, has driven the enemy back on a sector vital to the defense of Amiens, the German objective of the first offensive begun March 21. Between the Aisne and Marne the Germans still apparently do not take French gains east of Villers-Cotterets seriously having made no effort to retake the ground. Bad weather continues on the British front and is hampering operations. German artillery fire is strong on the Lys salient. Franco-Italian successes in Albania have enabled the allies to establish a connected battle line over a stretch of 200 miles, from Saloniki to the Adriatic. Prisoners taken by French in Tomorica valley have increased to 400.

PRESIDENT VEToes \$2.40 WHEAT BILL

Washington, July 13.—In vetoing the \$28,000,000 annual agricultural appropriation bill because of its amendment fixing the government guaranteed minimum wheat price at \$2.40 a bushel, the president informed congress today that he did not believe farmers of America depend upon a stimulation of price to do their utmost to serve the nation and the world at this time of crisis. The president said the patriotic spirit of the farmers has been "worthy of all praise and has shown them playing a most admirable and gratifying part in the full mobilization of the resources of the country." He added that the bumper crops they have raised this year have relieved "the anxiety of the nations arrayed against Germany with regard to their food supplies."

Congress was further informed that the president did not believe such inelastic price provisions as contained in the bill could be administered in a way that would be advantageous to the producer and consumer because they establish arbitrary levels independent of the normal market conditions. The administrative methods in fixing prices, he said, has been entirely satisfactory and should be continued. A fixed minimum price of \$2.40 a bushel, the president said, would increase the price of flour from \$10.50 to \$12.50 a barrel, and would put an additional burden of \$387,000,000 this year on the consumers. Such an increase in price, he said, would force a similar increase in Canada, thus enlarging the whole scale of financial operations in this country by the allied governments and affecting practically the entire world.

HERBERT PRITCHETT DIES AT OKLAHOMA CITY.

Herbert Pritchett died at Oklahoma City Friday, a wire from his father, J. L. Pritchett, father of deceased, to C. E. Cunningham stated. Particulars were not given but it is presumed the body will be brought to Ada for interment. Deceased was still a very young man and is cut down in the very prime of life. He was a young man of good character and well liked by all who knew him. He was a member of the W. O. W. camp of Ada.

Sugar shortage stimulated maple sugar production this year to a record with a total of 52,512,000 pounds of sugar and syrup equivalent. This represented an increase of more than 7,000,000 pounds over last year's production.

THE CHEERFUL CHERUB

I met a count the other day,
A fact that fills me with elation.
I must think up some off-hand way
To quote him in my conversation.

WEATHER REPORT.
Partly cloudy is the weather outlook for Sunday.

RAPID MOVEMENT OF U. S. TROOPS

NINETY THOUSAND LANDED IN EUROPE DURING PAST WEEK. TOTAL 1,100,000.

(By the Associated Press)
Washington, July 13.—American troops overseas and enroute have passed the 1,100,000 mark, General March, chief of staff, told the senate military committee members at the weekly conference today, representing an increase of over 90,000 since last week. Three army corps of from 220,000 to 250,000 men each have been definitely organized from American divisions in France.

ALLIED RAIDERS MAKE HEADWAY

FRENCH FORCES MAKE IMPORTANT GAIN. BRITISH RAIDERS SUCCESSFUL.

(By the Associated Press)
Paris, July 13.—In an operation last night on the front between Montdidier and the Oise the French pushed their advance posts forward a distance of approximately 500 yards in the Porte farm vicinity, the war office announces.

Army Casualty List.
Washington, July 13.—Today's army casualty list shows:

Killed in action ----- 14
Died of wounds ----- 1
Died accident and other causes ----- 2
Wounded severely ----- 46
Missing in action ----- 8

Corporal Harry Rogers of Cushing, Oklahoma, was severely wounded.

Marine Casualty List.
Washington, July 13.—Today's marine corps casualty list shows:

Killed in action ----- 11
Died of wounds ----- 5
Wounded severely ----- 17

British Raiders Busy.
London, July 13.—Successful minor enterprises carried out last night by the British on the Flanders front near Vieux-Borain and Merris resulted in the capture of ninety-six prisoners and a few machine guns, the war office announces. A German raiding party in the Meteren sector of the Flanders front was repulsed. German artillery developed activity during the night on the Flanders front and opposite Beaumont-Hamel.

CLAIMS FLYING MACHINE WILL REVOLUTIONIZE AVIATION

Clarence E. Holt of Ada is in Ardmore demonstrating the possibilities of a new model flying machine which promises to revolutionize aviation. The Holt machine has not a piece about it that is anything like any other aircraft and promises to give the allied nations supremacy in the air. This machine is so constructed as to overcome 90 per cent of the wrecks inasmuch as it does not depend upon engine power to drive it through the air. The faster it travels the more power is generated from the air with which to drive it still faster. It is simple and easily controlled to fly at any speed from one mile to 400 miles per hour. This machine, it is said, will fly just as fast traveling backward as it will forward, by reversing the gearing in flight. It rises perpendicularly and will hover on stand still in midair, and is perfectly silent as it travels in great speed.—Ardmoreite.

Wheat in Turkey \$50 a Bushel.
A cablegram recently received in Washington by Dr. William W. Peet, treasurer of the American Board Commission of Foreign Missions in Constantinople, from the American and Syrian Relief Commission in Turkey transmitted through Switzerland, states that wheat now sells in Turkey for \$50 a bushel. In prewar days 50 to 60 cents was the normal price. Speaking of this advanced price Dr. Peet said, "This indicates to me that the supply is now coming from North Bulgaria."

For some time those of small means in Turkey have been using the seeds of certain weeds, barley, and sesame ground together as a substitute for flour. "The seeds furnished by the Paasha to be planted for crops were used for food," said Dr. Peet, "as assurance of harvesting the crops was so uncertain that the people would not waste their energy in planting something that they might not reap."

PRINCESS
The feature of the evening will be the drama, "The German Curse of Russia." It is a splendid war story and gives a clear insight into some of the crooked work of the Huns in their new field of conquest.

REGISTRANTS WILL LEAVE JULY 26

The date for the next contingent of 85 men to leave Pontotoc County for the army has been changed from the 22nd to the 26th by orders just received by the local board. Notices had already been mailed to the registrants affected to report on the 22nd but new notices will be sent telling them of the change in date.

Attention Wheat Farmers.

Those farmers who raise wheat will be permitted from the milling or exchange of their own wheat, to take a sufficient supply of flour to last them until October 1st on the basis of 8 pounds per person per month, at which time further ruling will be announced.

This does not modify the general rule of substitutes and the wheat producer is not relieved from their use.
J. J. HOLDEN,
County Food Administrator.

MODIFICATION OF BEEF REGULATIONS

Due to the ready response by patriotic citizens in all sections of the country to the request of the U. S. Food Administration that the consumption of beef be limited to one and one half pounds per person per week, Mr. Hoover has advised that he has been able to purchase a substantial amount of the kind of beef required for export, as a result the Food Administration has announced that instead of serving beef at only four meals during the week and a particular kind at each meal, that any kind of beef may be served at one meal a day.

In order that the regulations may be uniform, the five states comprising the seventh zone, which are: Oklahoma, Kansas, Nebraska, Iowa and Missouri, have, after a thorough investigation determined that the majority of the public eating houses and house holds preferred their beef at the noon meal. Therefore, the regulations effective today provide for the serving of any kind of beef from 11 o'clock A. M. until 5 o'clock P. M., on Sunday, Monday, Tuesday, Wednesday, Thursday and Friday, and on Saturday beef may be served from 5 o'clock P. M. until midnight until further notice.

Veal is not restricted.
J. J. HOLDEN,
County Food Administrator.

ADA FLOUR FAMINE WILL END MONDAY

J. J. Holden, food administrator for Pontotoc county, states that the flour famine at Ada will probably be relieved Monday by the arrival of a car of flour. For the past ten days flour has been unobtainable here.

PRESCRIPTIONS

Bring your prescriptions to us. We take special pride in filling your prescription just as the Doctor would have it filled. Every Prescription brought to this store is filled by a Registered Pharmacist. Every Prescription is prepared with the utmost care and the purest and best ingredients. 10 Years of Careful work—filling Prescriptions in Ada has built us up a fine Prescription Business. Bring us your Prescriptions. Two Registered Pharmacists.
